REQUISITION LETTER

Date: 07/07/22

From

S.Dhinesh
Assistant Professor/Head
Department of Computer Science Engineering
CMS College of Engineering
Namakkal

To

The Principal
CMS College of Engineering
Namakkal

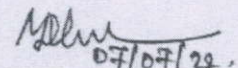

Respected Sir,

SUB: Request for Permission to conduct a seminar-reg.,

I am writing this letter to officially request your permission to conduct a seminar on "Bio-inspired Design: Learning from Nature in Engineering" at CMS seminar hall on 12/07/22 in the Academic year 2021 - 2022. As a HOD, Department of Computer Science Engineering, I believe that organizing this seminar will greatly benefit the students by providing them with valuable insights and knowledge beyond the standard curriculum.

Thanking you

Yours Sincerely,

07/07/22

DETAILS OF RESOURCE PERSON

Mr. M. Barath Kumar is a distinguished alumnus of Anna University, Chennai, with a Bachelor of Engineering degree. He is a visionary engineer and a leading expert in Bio-inspired Design, leveraging principles from nature to innovate in engineering solutions. Mr. Barath Kumar's journey from academia to industry has been marked by a relentless pursuit of excellence and a deep commitment to harnessing the power of nature for technological advancement. Mr. Barath Kumar's career is punctuated by significant contributions to the field of Bio-inspired Design. He has held pivotal roles in esteemed organizations, where he spearheaded groundbreaking projects that integrate biological principles into engineering solutions. Mr. M. Barath Kumar's pioneering work in Bio-inspired Design epitomizes the convergence of science, engineering, and nature. He has organized so many seminars and workshops.

SEMINAR REPORT

Date: 15/07/22

Title : "Bio – Inspired Design: Learning From Nature in Engineering"
Date : 12/07/22
Resource Person : Mr. M. Barath Kumar
Total Participants : 33

A Seminar on "Bio – Inspired Design: Learning From Nature In Engineering" was organized by CMS Engineering college campus, seminar hall on 12/07/23 at 10AM-1PM. The aim of the workshop is to understand the basics of "Bio – inspired design.

S. Dhinesh HOD/ CSE delivered the welcome address and he extended his warm welcome to the resource person and participants. The presidential address was given by Mr.C.A.Sathiyamoorthy, Principal, and CMS Engineering College. Further Mr.M.Barath kumar explained about "Bio – Inspired Design: Learning from Nature in Engineering"

The above topics were clearly explained with examples. Finally he concludes the workshop explaining the uses and its applications. At the end of session, doubts of the students also cleared. Finally the vote of thanks was proposed by Mr.S.Dhinesh (Department of CSE) Certificates also provided to the participants.

CHIEF GUEST PROFILE

Mr. Gowtham.E, B.E., He has completed Certified Scrum Master in Alliance Scrum and Mr. Gowtham is a highly esteemed Managing Director based in Chennai, recognized for his exemplary leadership and strategic acumen in steering organizations towards sustained growth and innovation. With an illustrious career spanning over two decades, Mr. Gowtham has garnered extensive experience in managing diverse business operations and driving transformational change across various industries.

His tenure as Managing Director has been marked by a profound understanding of market dynamics, exceptional business foresight, and an unwavering commitment to operational excellence. Mr. Gowtham's leadership is characterized by his ability to build and nurture high-performing teams, foster a culture of innovation, and implement strategic initiatives that enhance organizational performance and competitiveness. As the Chief Guest, Mr. Gowtham brings a wealth of knowledge, experience, and inspiration. His insights into strategic leadership and business innovation are invaluable, providing attendees with a unique perspective on achieving excellence in today's dynamic business environment. Mr. Gowtham's presence at the event is a testament to his dedication to fostering growth and innovation within the industry.

SEMINAR REPORT

Date: 11/08/22

Engineering college students benefitted from hands-on experience with state-of-the-art technologies such as data analytics, and advanced water treatment systems. Through practical projects and internships, students gained valuable insights into the application of these technologies in real-world scenarios.

Skill Development Opportunities: Participation in water management projects allowed engineering students to enhance their technical skills in areas such as programming, data analysis, and system integration. They learned to design and implement innovative solutions to address urban water challenges, thus preparing them for future careers in the field of smart city infrastructure development.

Career Advancement Opportunities: The knowledge and skills gained through involvement in water management systems in smart cities positioned engineering college students for career advancement opportunities in both public and private sectors. Graduates with expertise in smart city technologies and sustainable water management practices were in high demand, offering promising career prospects in fields such as urban planning, infrastructure development, and environmental engineering.

Overall, participation in water management projects in smart cities provided engineering college students with practical experience, skill development, industry exposure, and career advancement opportunities, thereby enriching their academic journey and preparing them for successful careers in the field of engineering and technology.

From

S.Dhinesh
Assistant Professor/Head
Department of Computer Science Engineering
CMS College of Engineering
Namakkal

To

The Principal
CMS College of Engineering
Namakkal

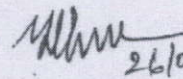

Dear Sir,

SUB: Request for Permission to conduct a Seminar-reg.,

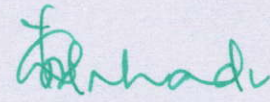

We have planned to organize a seminar titled "Android Application Development". It will be useful for all engineering college students. The proposed date for the Seminar is 28.09.2022 and we plan to conduct it from 10AM-4PM in seminar hall.

Thanking you

Yours Sincerely

26/09/22

CHIEF GUEST PROFILE

Mrs. UshaRani is a distinguished App Developer hailing from Coimbatore, celebrated for her innovative contributions to the world of mobile and web application development. With a career marked by creativity and technical excellence, Mrs. UshaRani has been at the forefront of crafting user-centric applications that enhance user experiences and drive business growth. Her commitment to quality and her passion for innovation have resulted in the successful launch of numerous high-impact applications across different sectors, including healthcare, education, and e-commerce. She has presented more than 30 seminars. As the Chief Guest, Mrs. UshaRani brings a wealth of experience, knowledge, and inspiration. Her insights into the latest trends and best practices in app development are invaluable, and her journey serves as a powerful example of what can be achieved through dedication and innovation. Attendees can look forward to an engaging and insightful session, enriched by the expertise and vision of one of the leading figures in app development.

SEMINAR REPORT

Date: 01.10.2022.

Title : "Android Application Development"
Date : 28.09.2022.
Resource Person : Mrs.M.Usharani
Total Participants : 33

This seminar aims to train the student on Android Application Development. Android applications facilitate communication and connectivity, enabling users to stay in touch with others through messaging, social media, and email apps. They enhance productivity by offering tools for task management, note-taking, document editing, and time management, helping users accomplish tasks efficiently.

Android apps provide entertainment through streaming services for music, movies, and TV shows, as well as gaming apps for fun and relaxation. They serve as gateways to vast amounts of information on the internet, offering access to news updates, educational resources, and online databases. Android app development contributes to the growth of e-commerce by providing platforms for online shopping, payment gateways, and digital wallets, facilitating convenient transactions for consumers.

Students understood Android Application Development and its uses and student knows about "Android Open Source Project (AOSP) is tasked with the maintenance and further development of Android.

SEMINAR REPORT

Date: 19.12.2022

Students should be aware of potential biases in training data and implement techniques to mitigate them. Ensuring that ML models are interpretable is crucial for establishing transparency. Students should prioritize using ML models with clear decision-making processes, making it easier for stakeholders to understand and trust the system's predictions.

Emphasize the importance of respecting user privacy by incorporating robust data anonymization and protection measures. Educate students on the significance of obtaining informed consent and adhering to privacy regulations to build user confidence in the responsible use of data. A rigorous validation process is essential to validate the performance and reliability of ML models. Encourage students to thoroughly test models on diverse datasets, ensuring they generalize well across various scenarios. This approach contributes to building a solid foundation of trust in the model's capabilities.

Building trust and transparency in ML models is an ethical imperative. Students can contribute to this goal by understanding and implementing strategies to mitigate bias, prioritizing explain ability, respecting privacy, conducting rigorous testing, and maintaining clear communication throughout the development process. The resource person explained well about transparency in Machine Learning models and students contributed to the responsible and trustworthy advancement of machine learning technology.

CHIEF GUEST PROFILE

Mr. Sathishkumar is a distinguished AI Engineer renowned for his pioneering contributions to the field of artificial intelligence and machine learning. With a career spanning over a decade, Mr. Sathish has consistently demonstrated his expertise in developing cutting-edge AI solutions that drive innovation and efficiency across various industries. He has conducted more than 30 seminars. He has good knowledge in IT industry. He has more than 12 years of experience in teaching field and one year as a trainee. His area of interest is advanced computer Architecture as well as data mining and data warehousing. He conducted lot of workshop and certificate courses. As the Chief Guest, Mr. Sathish brings a wealth of knowledge, experience, and inspiration. His visionary insights into the future of AI and its potential to reshape the world make him an exemplary leader and role model. Attendees can look forward to an engaging and enlightening session, gaining valuable perspectives from one of the foremost experts in artificial intelligence.

SEMINAR REPORT

Date: 09/03/23

Name of the Program: **“AI for Drug Discovery: Accelerating Pharmaceutical Research”**

Name of the Resource Person: Mr. Sathishkumar

Date: 06/03/23

Number of Beneficiary: 38

The students participated the program with enthusiasm and engagement. The seminar on "AI for Drug Discovery: Accelerating Pharmaceutical Research" was conducted for engineering college students last week. The event aimed to provide students with insights into how artificial intelligence (AI) is revolutionizing the field of drug discovery and expediting pharmaceutical research.

During the seminar, various aspects of AI in drug discovery were covered, including machine learning algorithms, deep learning models, and data analytics techniques utilized in drug development processes. Case studies highlighting successful applications of AI in identifying potential drug candidates, predicting molecular interactions, and optimizing drug design were presented.

Additionally, our Resource person shared their experiences and insights on leveraging AI tools and techniques to streamline drug discovery pipelines, reduce costs, and accelerate the development of novel therapeutics.

RESOURCE PERSON-PROFILE

Mr. Prasanna is a seasoned Cloud Engineer at Tata Consultancy Services (TCS) in Chennai, with a robust background in designing, implementing, and managing scalable cloud infrastructure solutions. With a strong expertise in cloud platforms such as AWS, Azure, and Google Cloud, Mr. Prasanna excels in optimizing cloud environments to enhance performance, security, and cost-efficiency. His collaborative approach and strong problem-solving skills make him a valuable asset to any project team, driving successful outcomes and fostering a culture of technological excellence. Beyond his technical acumen, Mr. Prasanna is known for his dedication to mentoring junior engineers and contributing to the growth of the cloud community within TCS. His passion for technology and commitment to excellence are evident in every project he undertakes.

SEMINAR REPORT

Date: 20-04-2023

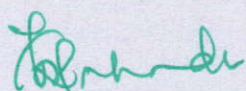

Title : **ROLE OF PYTHON IN IT INDUSTRY**
Date : 17-04-2023
Resource Person : Mr. Prasanna
Total Participants : 45

This seminar aims to train the student on the importance of Python role in IT Industry. Python has become indispensable in the realm of IT, offering a myriad of applications across various domains. Its simplicity, versatility, and extensive libraries make it a preferred choice for software development, data analysis, automation, and beyond.

Python is used a lot in making websites and web applications because it's easy to use and helps in making them quickly. People who work with data often use Python because it has tools that make it easy to work with data and understand it better. Python helps in making computers learn and do things by themselves. It helps in making smart things like chat bots and self-driving cars.

People also use Python to make tasks easier by writing small programs that do things automatically, like sending emails or organizing files. In keeping computers safe from bad things, Python is used to find and fix problems in programs, and also to make sure that systems are secure.

CHIEF GUEST PROFILE

Mr. Sathishkumar is a distinguished AI Engineer renowned for his pioneering contributions to the field of artificial intelligence and machine learning. With a career spanning over a decade, Mr. Sathish has consistently demonstrated his expertise in developing cutting-edge AI solutions that drive innovation and efficiency across various industries. He has conducted more than 30 seminars. He has good knowledge in IT industry. He has more than 12 years of experience in teaching field and one year as a trainee. His area of interest is advanced computer Architecture as well as data mining and data warehousing. He conducted lot of workshop and certificate courses. As the Chief Guest, Mr. Sathish brings a wealth of knowledge, experience, and inspiration. His visionary insights into the future of AI and its potential to reshape the world make him an exemplary leader and role model. Attendees can look forward to an engaging and enlightening session, gaining valuable perspectives from one of the foremost experts in artificial intelligence.

SEMINAR REPORT

DATE: 06/05/23

NAME OF THE PROGRAM: **“Digital Tools for Effective online Teaching”**

NAME OF THE RESOURCE PERSON: Mr.Sathish Kumar,

DATE: 04/05/23

NUMBER OF BENEFICIARY: 33

Digital tools are very useful for online teaching, helping students learn more effectively. One key benefit is that they make learning flexible. Students can access lessons at any time and from anywhere, which helps those with busy schedules or different learning paces. Digital tools like video conferencing platforms enable live classes where students can see and hear their teachers, ask questions, and interact with classmates in real-time. This keeps the learning experience interactive and engaging, similar to traditional classrooms.

Online platforms often include forums and chat features that let students discuss topics, share ideas, and help each other with assignments. This fosters a sense of community and collaboration, even when students are not physically together. Educational apps and software provide interactive lessons and exercises, making learning more enjoyable. These tools can adapt to each student's level, offering personalized feedback and practice to help them improve.

In summary, digital tools for online teaching help students learn more flexibly, interactively, and effectively. They provide access to various resources, enable collaboration, and offer personalized learning experiences. These benefits make digital tools an essential part of modern education.
